# ACE math reflection

High-Impact Teaching Math Tools Without the Price Tag

## ARTICULATE: Explain the mathematical idea

What does the representation show? Explain the reasoning in your own words.

_____

_____

_____

## CONNECT: Relate it to another concept

How does the idea connect to another representation, strategy, or mathematical relationship?

_____

_____

_____

## EXTEND: Apply it to a new problem

Change the dataset, starting point, or context. What stays the same? What must change?

_____

_____

_____

## For the educator

Name the instructional strategy, choose a tool that serves the goal, and describe the evidence you will look for. Use the browser ACE builder to plan instruction; use this student-facing version to prompt mathematical explanation.
